Career Objective

Dynamic professional with a background in Mechanical Engineering and a seamless transition into the IT sector as a UI/UX Designer and Developer. Expert in both design and development, I bring a unique blend of technical precision and creative innovation to my projects. With a strong foundation in engineering principles, I excel at crafting user-centric designs and functional, intuitive interfaces. My experience spans the entire design and development lifecycle, ensuring a holistic approach to problem-solving and project execution. Passionate about creating engaging digital experiences that are both visually appealing and technically sound.

Experience

1. Working as Sr. UI-UX Designer for the **Bunyk PVT. LTD** - Aurangabad, Maharashtra from Jun 2024 till date.

Senior UI/UX Designer with a strong background in creating user-centered designs through thorough research, wireframing, and prototyping. Skilled in developing cohesive and visually appealing interfaces across web and mobile platforms while ensuring seamless collaboration with development teams. Committed to enhancing user satisfaction by staying current with UI/UX trends, usability standards, and accessibility best practices.

Job Responsibilities-

- Conduct user research to guide design decision.
- Create wireframes, prototypes, and consistent interface designs for web and mobile.
- Collaborate with developers to ensure accurate design implementation.
- Run usability tests to improve and refine user experiences.
- Stay updated to design trends and best practices

2. UI-UX Design & Developer Internship, at [Bunyk PVT.LTD](#) – Aurangabad, Maharashtra

[Jan 2024 – Jun 2024](#)

During my 6-month internship at Bunyk, I had the opportunity to delve into UI design and web development. I collaborated with a talented team to craft intuitive user interfaces and build engaging websites. This internship not only honed my design and coding skills but also provided invaluable industry insights, setting a strong foundation for my future career.

3. Implant Training, at [IT Corner](#). – Aurangabad, Maharashtra

[Aug 2022 – Nov 2023](#)

- Completed Implant Training at IT Corner, where I gained hands-on experience in C, C++, HTML, CSS, and Java programming languages. Developed a solid foundation in software development, enhancing my problem-solving skills and technical proficiency.

4. Production Engineer, at [NPSE Automation PVT.LTD](#). – Aurangabad, Maharashtra

[Apr 2019 – Jun 2022](#)

- As a Production Engineer at NPSE Automation Pvt. Ltd., I played a pivotal role in optimizing manufacturing processes to ensure high levels of efficiency, quality, and productivity.
- In this role, I developed strong analytical, problem-solving, and leadership skills, significantly contributing to the operational success of NPSE Automation Pvt. Ltd.
- **Job Responsibilities-**
- Coordinate and plan production schedules to meet customer demands while optimizing resources and minimizing costs.
- Continuously improve manufacturing processes to enhance efficiency, reduce waste, and ensure product quality meets standards.
- Supervise production teams, provide technical guidance, and foster a culture of teamwork and accountability.
- Ensure compliance with health, safety, and environmental regulations to maintain a safe working environment for all employees.
